

# esco De-icing Salt

## Rock salt

- ✓ High efficiency
- ✓ Free-flowing properties
- ✓ Controlled quality

### Field of application

esco de-icing salt is used as road salt to remove snow and ice and is suitable for public and private use.

### Product

esco de-icing salt is a particularly effective mixture of fine and crude salt crystals, as called for by the appropriate guidelines. Whereas the fine crystals have an immediate thaw effect, the cruder crystals ensure the required delayed action in the event of a thicker layer of ice and snow.

- ◆ High content of thawing substance
- ◆ Ideal grain size range
- ◆ Solubility almost 100 %
- ◆ For long-time storage

DE-ICING

# esco De-icing Salt

## Rock salt

### Product range

Packaging size:	3 kg bag (285 x 3 kg per pallet) 10 kg bag (84 x 10 kg per pallet) 25 kg bag (40 x 25 kg per pallet) 50 kg bag (21 x 50 kg per pallet) 1,000 kg Big Bag Bulk
-----------------	---

Type of packaging: PE bag

Grain size:	as per TL-Streu (German technical regulation on gritting agents)
-------------	---

GTIN:	3 kg: 4003885006309 10 kg: 4003885006002 25 kg: 4003885134101 50 kg: 4003885135108
-------	---

We would be happy to provide you with a sample.

For more information on this and other products, please do not hesitate to contact us.

### Product quality

esco de-icing salt is a mined product from rock salt deposits that were formed around 200 million years ago in the Zechstein sea, and features a naturally high proportion of sodium chloride (around 99 %). This and its pure white colour make esco de-icing salt a first-class quality product providing an excellent thaw effect. The deposits esco is exploiting are located in Northern Germany, and our

production facilities are among the most state-of-the-art of their kind in Europe. All of them hold valid certification to EN ISO 9001.

### Service

We offer our customers first-class service, guaranteed consistently high product quality and very reliable deliveries across the whole of Europe thanks to highly effective logistics.
