Natural iodized feed salt

Natural rock salt for animal nutrition with added iodine

- ✓ GMP+
- ✓ Recognized by QS
- ✓ With added iodine

Field of application

This high-quality natural rock salt is used and recommended as sodium chloride single feed in animal nutrition. The preparation with iodine prevents nutrition-related deficiency symptoms and supports a number of different metabolic processes.

Product

esco natural iodized feed salt can be used in organic farming in accordance with EC regulation 834/2007. It satisfies all the requirements of the EU directives on animal feed and complies with the German Animal Feed Regulation.

- ◆ Suitable for use in organic farming
- ◆ GMP+ certified
- ◆ Recognized by QS
- ◆ Iodized
- ◆ Mined natural product

Product quality

esco natural iodized feed salt is made from pure rock salt with a sodium chloride content of 99 %. The addition of iodine helps to prevent certain deficiency symptoms. Iodine is an important feed supplement for preventing nutrition-related deficiency symptoms. These can lead to reproductive problems, weight loss due to lack of appetite, a slower metabolism and impaired performance.

Sodium also keeps the osmotic pressure in the cells, regulates the water balance and plays an important role in the transfer of nerve impulses and the contraction of muscle fibers.

Magnesium is important for muscle function and bone formation. It also activates enzymes that are involved with the metabolism of energy.

Calcium is involved in the transfer of nerve impulses and is an essential part of bone formation. It also plays an important role in lactation and is a valuable mineral in milk.

Certification

The production facilities of esco – european salt company hold valid certification to EN ISO 9001. Strict compliance with hygiene requirements is confirmed by the certified HACCP system. esco products satisfy the requirements of GMP+ certification, EC regulations 834/2007 and 889/2008 (certified by DE-ÖKO-039) and are recognized as feed products according to the QS standard.
