

## esco SOLSEL® salt lick block

Health and performance through self-feeding

### Field of application

SOLSEL® salt lick blocks are suitable as feed material for all types of animal. The size and weight of the blocks, however, are designed especially for cattle, horses, sheep, goats, pigs and larger non-domesticated animals.

### Product

SOLSEL® salt lick blocks are produced from pure rock or vacuum salt using a special pressing method. The blocks' stability is the result of long-term product development and constant hardness tests. This ensures excellent weather resistance and balanced consumption by the animal.

- ◆ GMP+ certified
- ◆ Recognized by QS
- ◆ Suitable for use in organic farming
- ◆ Economical feed supplement that complies with requirements
- ◆ Proven quality
- ◆ Also available as 25 kg lick block

10 kg  
(120 x 10 kg per pallet)  
25 kg  
(60 x 25 kg per pallet)

Composition: Sodium content  
39 %

We would be happy to provide you  
with a sample.

For more information on this and other  
products, please do not hesitate to  
contact us.

## Product use

Modern animal husbandry also  
requires optimized feeding.  
Healthy and well-performing ani-  
mals have an advantage in fatten-  
ing and sport, milk production  
and breeding.

The determination of animals'  
individual salt requirements is  
complex, as it depends on the  
type of animal, life span, use and  
work load. An animal will lick salt  
until its needs are satisfied.

Overdosing or addiction is im-  
possible. SOLSEL® salt lick blocks  
help to provide efficient food  
supplementation.

## Certification

esco production facilities hold  
valid certification to EN ISO 9001.  
Strict compliance with hygiene  
requirements is confirmed by  
the certified HACCP system. esco  
products satisfy the requirements  
of GMP+ standards, EC regula-  
tions 834/2007 and 889/2008  
(certified by DE-ÖKO-039 and NL-  
BIO-01) and are recognized as  
feed products according to the  
QS standard.

## Service

We offer our customers first-  
class service, guaranteed con-  
sistently high product quality  
and a reliable international de-  
livery.
