Product properties

esco food grade PDV salt is made from extra-pure and fully soluble vacuum salt, and is ideal for use in the food industry. Perfect grain sizes, excellent pouring properties and residue-free solubility are the hallmarks of the various food grade PDV salts from esco.

Product quality

esco food grade PDV salt is a high-purity vacuum salt with a sodium chloride content of 99.8 %. This high level of purity is achieved through a careful crystallization process and the use of particularly pure and unadulterated brine. The esco vacuum food grade salt used satisfies the requirements of the Codex Alimentarius and the FCC VII.

Certification

esco production facilities hold valid certification to EN ISO 9001. Strict compliance with hygiene requirements is confirmed by the certified HACCP system. Kosher and Halal requirements are complied with.

Service

We offer our customers first-class service, guaranteed consistently high product quality and a reliable international delivery.
