

## Marina® Plus

Salt tablets for producing active chlorine  
for disinfection purposes

- ✓ DIN 19643
- ✓ EN 14805 Type 1
- ✓ EN 973 Type A
- ✓ Codex Alimentarius

### Field of application

Marina® Plus salt tablets are used to produce active chlorine for disinfecting and purifying drinking water and swimming pool water in all public areas, such as hotels and wellness facilities. When used in membrane electrolysis, Marina® Plus salt tablets facilitate the production of high-purity and high-stability sodium hypochlorite with effective disinfection properties. This ensures drinking water quality free from pathogenic microorganisms.

- ❖ Maximum purity
- ❖ Low calcium, magnesium and heavy metal content
- ❖ Low bromine content
- ❖ Complete solubility of the salt tablets
- ❖ Ideal surface and excellent shape stability ensure residue-free dissolving

# Marina® Plus

Salt tablets for producing active chlorine  
for disinfection purposes

## Product range

Packaging size: 25 kg bag  
(40 x 25 kg  
per pallet)  
1,000 kg  
single-use FIBC/  
Big Bag

Type of packaging: PE bag

GTIN: 25 kg:  
4003885180306

We would be happy to provide you  
with a sample.

For more information on this and  
other products, please do not hesitate  
to contact us.

## Product quality

Marina® Plus are fully-soluble vacuum salt tablets of maximum purity that have been developed especially for membrane technology used in the electrochemical production of active chlorine. By satisfying the European EN 14805 Type 1 and

EN 974 Type A, the German DIN 19643 and Codex Alimentarius standards, Marina® Plus salt tablets provide the ideal means for disinfecting drinking water and swimming pool water.

## Production process

Marina® Plus salt tablets are made from the purest vacuum salt and compacted at high pressure under controlled conditions. This method prevents the premature decay of the tablet salt and optimizes the dissolving process.

## Certification

esco production facilities hold valid certification to EN ISO 9001. Strict compliance with hygiene requirements is confirmed by the certified HACCP system.

## Service

We offer our customers first-class service, guaranteed consistently high product quality and very reliable deliveries, even across national borders.

## The company

esco – european salt company is the leading salt producer in Europe and exports significant quantities overseas. Water softening products are constantly being developed and exceed legal requirements. This is made possible by the company's extensive experience in the water softening products market.
